COMMERCIAL INTELLIGENCE

WEDNESDAY EVENING, OCT. 11.

REUTER reports the result of the tenders for the new ster ing debenture loan of 2 millions as 100. 13 getting 9 per cent., 4 millions having been tendered for. It seems somewhat doubtful whether decimal 13 or 13 shillings premium is meant, but we are inclined to think the latter. If so the loan, so far as the price obtained is concerned, may be considered to have brought its full value in the existing state of the London money market, but there is nothing yet to show the real object of the operation itself, nor whether it may be considered good business from a financial point of view. It is currently reported here that the object of the loan is merely to cover something like an equivalent amount of old debentures now falling due; but if so there is no trace of any such liability maturing, and we are still inclined to think that it is merely to meet present monetary requirements, which, whatever their nature, would have been provided for in an ordinary way by the proceeds of the sales of Council Drafts. In the meantime the effect has quite worn off so far as the value of the rupee goes, and a further drop seems now fully anticipated.

The result of to-day's biddings for Council Drafts will afford a very good test of how the position is viewed, but unless Government raise their minimum again to 1s. 8d. we are inclined to think the tendency will be still downwards.

Consols in London yesterday were ¼ lower at 101, but with this exception no change is reported in stocks.

In General Produce the movements are in no way more marked. Linseed comes firm, with a partial advance of 3d. to 1s. in Calcutta kinds; Wheat is firm and for No. 1 Calcutta Club is 6d. per quarter higher; but otherwise there is no change.

COTTON in Liverpool appears to keep firm in tone, but prices both on the spot and to arrive are unaltered, and the estimated sales yesterday were only 10,000 bales, of which 1,500 were Surats. In New York ready Mid-Uplands were 1-16 higher and March shipment 5 points better. The receipts at the U. S. ports to date give the following comparisons:—

	1882.	1881.	1880.
Tuesday's receipts	27,000	23,000	37,000
Four days'	98,000	101,000	102,000
Total since 1st September	572,000	692,000	791,000

The figures are now beginning to very nearly keep pace with last year, but they have yet some lee-way to make up, and moreover a very decided increase on last year's returns is bound to take place before long, if anything like the large crop now talked of is to be secured.

EXCHANGE.—The greatest quietness has prevailed in sterling to-day. So far as any effect has been apparent at all, the result of the new loan appears to have had rather a quietening influence than otherwise, but it is evident that people are inclined to await the result of to-day's biddings for Councils before operating either way, and next to nothing in the shape of real business has been transacted. We quote for ready bills:—

Bank Bills on demand	1s. 7 13-16d.	per rupee
Do. Telegraphic	1s. 3d.	"
Do. 3 months sight	1s. 8 1-32d.	"
Credits, 3 "	1s. 8d.	"
France, 3 "	2 13	"

On Calcutta we still quote demand at ¼ premium, 60 days' sight at 7-16 discount. Government Paper, although extremely quiet, is very steady, and for Fours the quotation has advanced to Rs. 99½. Fours-and-a-half, however, are still nominal at Rs. 106½.

SHARES are firm, with a fair business passing. Press companies are in excellent request, and our quotations show an advance of Rs. 15 in Akbar, Rs 20 in Aibert, Rs. 20 in Mofussil, Rs. 10 in New Indian, and Rs. 50 in Fort Press. Spinning and Weaving Companies are very firm and generally Rs. 10 higher all round.

COTTON is firm, and for new Crop future delivery an advance of Re. 1 to Rs. 2 per candy is asked. In old stuff very little is doing, the transactions reported to-day being 300 bales Strict Good Fair Karinja at Rs. 187 and 200 bales F. G. F. American seed at Rs. 193 per candy.

SEEDS and WHEAT are unchanged as regards prices, but there is rather more doing owing to slightly increased supplies and present low rates of freight.

FREIGHTS are very dull. Even at 20s. for Liverpool the supply of tonnage seems in excess of requirements, and a further decline seems probable.

Exhibit no appreciable change.

The Bombay Gazette

THURSDAY, OCTOBER 12, 1882.

THE impression formed from a perusal of the full text of the Resolution of the Government of India in reply to that of the Bombay Government on local self-government is that it is a less censorious, and more argumentative, document than might have been inferred from the telegraphic summary. The reasons which the Viceroy adduces in support of his strictures on the attitude of Sir James Fergusson are a more conclusive censure than the strongly-worded phrases in which his feelings are summed up. It is perhaps to be regretted that both Governments should have indulged in eloquent generalizations which have the effect of laying each other open to an opponent's attack, and diverting the line of discussion from the practical points at issue. It would, for example, have been wiser, and would not in the least have weakened their case, had the Bombay Government suppressed the ill-starred 2nd paragraph of their Resolution, in which their stock of ill-humour was got rid of by the bestowal of vague, though florid, adjectives on the Viceroy's policy. This self-denial, too, was the more expedient, as the only object His Excellency in Council had in view was to "record an opinion" which he was unable to carry into effect. The paragraph referred to, however small may have been its practical value, seems to have had the effect of offending the Government of India; and, in consequence, we have had an exchange of verbal shafts, likely to be exceedingly effective in a Parliamentary debate, but which appear rather out of place on the pages of a Government Resolution. But it was not in human nature that the Government of India could have placidly accepted the paternal sort of reproof addressed to them by Sir James Fergusson. They were therefore entitled to their rejoinder, and having delivered it with tolerable effect, we may be permitted to hope that this singular episode in gubernatorial amenities is at an end. We are far from regretting the candid exchange of views on this subject; but if the necessity for a free discussion of administrative projects has made itself felt, we should prefer that the opportunity were supplied by the means suggested by Lord Ripon, rather than by the cumbrous and unsatisfactory agency of Government Resolutions.

The Government of Bombay excusably took a good deal of credit to themselves for the advances which have been made towards self-government in this Presidency. They point with pride to the fact that "the improvements which have been effected, and the progress in all that constitutes civilisation, are hardly credible to those who can remember the state of this Presidency even twenty years ago." This satisfactory state of affairs is highly honourable to the administrative capacity of the Government and officials of Bombay, but, in so far as it affects the question of extending self-government, it supports the views of the Government of India rather than those of Bombay. It will be obvious that this made such progress in the direction in which the most liberal extensions of self-government might be made with the greatest safety. It is no detraction whatever to the system of administration which has achieved these things to say that having done its work so well, it might now be superseded by an organization of a more popular and liberal character. It is due, perhaps, to their anxiety to "take down" the Bombay Government that the townsmen of that city display more industry in picking holes in our system than in drawing arguments from its efficiency in favour of their own scheme. It is one reason for regretting that the discussion fell into so acrimonious a vein that sober conclusions are apt to be sacrificed for the sake of acquiring some fancied advantage over an antagonist. In the subsidiary clause of a sarcastic sentence, Lord Ripon refers to the favourable field the Bombay Presidency "would seem" to present for experimenting in local self-government, but he does so not for the purpose of acknowledging the services of Bombay system in the past, but to contrast how disadvantageously the existing system of local self-government compares with what in the opinion of the Government of India the condition of this Presidency would seem to justify. There seems to us in this phraseology a lack of generosity—a disposition, apparently to disparage the achievements claimed by the Bombay Government—which we have no doubt, is to be attributed to the first instance to the irritating tone of the Bombay Resolution. In order that the logical conclusions may be fairly drawn from the appearance of the repetition of the limited self-government in Bombay, we sincerely hope that in their future communications on the subject the two Governments may adopt a spirit of mutual forbearance.

It remains to be noted that the Viceroy exposes the weakness of his own case, when, he says, he is still "not prepared to attach much importance" to the Local Fund and Municipal Acts of 1869. These Acts were admittedly tentative in nature, and were intended to be final, they ought, at least, after seven years' experiment, to have received some confirmation, with such modifications as experience would suggest. But as Sir James Fergusson says, to express a declaration of duty on the part of the Bombay Government not to have progressed on the road which was so auspiciously opened by Lord Ripon, it is true, does not believe his own conscious made by the two Acts of 1869 were adequate to the requirements of the time. "On the contrary," says the Resolution, "a reference to the debates which took place in the local Council in connection with the passing of the Bombay Municipal Act of 1873 will show that that measure was from the outset regarded by the intelligent members of the native community as limiting unduly the powers which Municipal Commissioners enjoyed under Act XXVI. of 1850—the enactment that it super

SHORTCOMINGS OF THE MEDICAL DEPARTMENT IN EGYPT.

(FROM OUR OWN CORRESPONDENT.)

ALLAHABAD, OCT. 11.

The *Pioneer* publishes the following :—

Surgeon-General Maclain's defence for the Medical Department is that any irregularities that may have existed were due to the sudden shifting of the base.

The *Times* acquits the department, but insists upon an inquiry as to who was culpable.

The sick and wounded who have returned complain of scarcity and quality of rations and brutal treatment on board the Malabar and other transports. An inquiry will probably be held.

Baker Pasha requires a year to reorganize the Egyptian Army, and deprecates the previous withdrawal of the British troops.

LAST Saturday's *Gazette of India*, received here yesterday, contains a mass of Local Self-government literature, including the Bombay Government's Resolution and the Government of India's reply thereto. We reproduce the reply in full in another column.

THE Session of the Education Commission in Madras will probably close on the 18th instant. The President, the Hon. W. W. Hunter, intends afterwards to visit several of the great centres of native private enterprise in education in the Southern districts. He will travel straight from Madura to Bombay by rail, a four days' journey, arriving here about the 24th instant. The public sittings at Bombay commence on the 25th instant. Dr. Hunter will be the guest of the Hon'ble Justice West.

BY request of the Lieutenant-Governor, all Government schools and colleges in the Punjab were closed on the 9th inst., in honour of the passing of the Punjab University Bill.

THE Maharajah of Hill Tipperah, in Bengal, has been carrying on some experiments lately with silver ore found in the Lalmye hills. Up to the present time, however, the Lahore paper says, no satisfactory results have been obtained.

THE correspondent of the *Madras Mail* at Salem telegraphed on September 9 :—The trials (at the Special Sessions) commenced at 11 o'clock. There are forty witnesses for the prosecution, and it is stated 220 for the defence. Several hundreds of natives assembled in the compound of the court, which, however, was well protected. The prisoners pleaded not guilty. Mr. Shepherd opened the case with a brief speech, pointing out that ample evidence would be given, proving the holding of several meetings for arranging riots, also that several prisoners actually took part in the riots. The taking of evidence was then proceeded with.

A MARINE COURT OF INQUIRY is sitting at Calcutta in connection with the recent collision on the Hooghly between the barque Nevada and the ship Savoir Faire. A charge has been framed against Mr. J. A. Thomas, pilot, as follows :—"That he, in command of the steam-tug called the Mary Stuart, did, on or about the 20th September, 1882, while towing the barque Nevada, through negligence, unskilfulness, or other default, caused the barque Nevada to come in collision with the ship Savoir Faire, which vessel was riding at anchor at Diamond Harbour anchorage in the River Hooghly."

THE Agra paper states that the Pope has created Major Florence Filose, of Gwalior, a Knight of the order of St. Sebastian.

SOME particulars of the operations of the Indian Post-office in Egypt have been received by a Calcutta paper, from which it would appear that the Indian service compares favourably with that of the British Army Postal Corps. While the British Post-office, though very strong in the number of officers, does not undertake the delivery of articles at the addressees' residences, the postal staff from India provided this very desirable convenience. The Indian Field Post-office was opened for business for a few hours on Sunday, which was found to be a great convenience where officers and men were liable to be ordered off at a moment's notice. The British Post-office was closed on Sunday for the transaction of all business with the public, only one delivery and one despatch of mails being made on that day.

SOMETHING of the nature of agricultural banking business is being tried with success in Bengal. The Jessore Loan Company, which earned last year over 20 per cent. on its capital of Rs. 80,000, is entirely under native management ; it enjoys the confidence of the public and the countenance of the local Government. This and one or two other similar companies receive deposits at the rate of 6 to 12 annas per cent. per mensem. The Commissioner of the Division, reporting on the operations of the Jessore concern, remarks that the natives appreciate "deposit facilities," by which their money is more easily got at than if it were invested in shares or stock. These companies do not confine themselves to holding deposits, but open current accounts, give cheque-books to their constituents, and grant loans on security of landed property, houses, jewellery, and goods. Similar undertakings would have a good field, the Lahore paper points out, in the Punjab, where civil suits by bankers or shopkeepers against agriculturists have risen in number and amount to 44 per cent. of the total litigation of the Province. Mr. Mackworth Young, Secretary to the Punjab Government, remarks that "any measure which would lessen this enormous litigation against the agricultural classes would be attended by the double benefit of promoting the prosperity of the agricultural community, and of reducing the expensive judicial agency with which the country threatens to become more and more burdened." The Lieutenant-Governor, Sir Charles Aitchison, is of opinion that the true remedy for this state of things lies in the establishment of agricultural banks, as well as in the simplification of the procedure for granting Government advances to agriculturists.

THOUGH vegetarianism may be good for some people, it evidently is not suited to every constitution. Though "A. O. H." appears from his own account to have been greatly benefited by a recourse to vegetable diet, other people have suffered as much detriment from it. A correspondent, who "would fain listen to the voice of the charmer, being one to whom lissomeness and sound rest are pretty well things of the past," writes to the *Pioneer*, in answer to "A. O. H.'s" general assertion that no European should eat meat in India who wishes to maintain good health :—"My experience is all the other way, as, for instance, a near relative lived two years in Burma, where eatable meat was unattainable, and where she, perforce, became a vegetarian, and, I may add, she was next door to a total abstainer. The result was, when she was at death's door, she returned to India, resumed meat, and regained her health. Another vegetarian was literally snatched out of the grave by being forced to take some strong beef-tea."

THE Press Commissioner informs us :—It has been represented to the Government of India that the provisions bearing on contracts contained in Act I. of 1882 (the Inland Emigration Act, 1882) render unnecessary the further maintenance in the Province of Assam of Act XIII. of 1859, "an Act to provide for the punishment of breaches of contract by artificers, workmen, and labourers in certain cases." It is therefore in contemplation, on the recommendation of the Chief Commissioner, to repeal the latter Act, so far as the Province of Assam is concerned.

A BRIEF obituary of Father O'Neill appears in the last number of the *Guardian*. He was educated at Eton and at Cambridge, and was afterwards a Mathematical Master at Eton. He was one of the three original members of the Society of St. John. For the last twelve years Father O'Neill had been engaged in mission work at Indore, where he lived in a mud-hut built by his own hands. It consisted of only one room, almost entirely unfurnished, save for a mat in one corner of it. Some narrow slits in the wall served for windows : they had no glass in them, nor had the door any lock. Here Father O'Neill lived and laboured in the Mahomedan quarter of the city. On re-visiting England a short time ago, after a long absence, his gentle and refined manner in society was just the same as ever. This latter statement the many in India who knew and esteemed him will fully confirm. As is well known, he died of cholera a short time ago in the midst of his labours, and his really eloquent voice will be much missed in the various Indian stations which he visited on occasional tours.

THE meeting of the Calcutta sympathisers with the Salvationists in the "unjust and arbitrary treatment they received from the Bombay police was, the *Englishman* says, "as far as mere numbers are concerned, the largest that has been brought together within the past ten years. There must have been upwards of 4,000 present, composed mostly of Hindu students from the native quarters of the town, some fifty ladies, some native convert ladies, an omnibus-load of school-girls, some five or six Mahommedans, and some score of European and Eurasian clerks, missionaries, policemen, and others." The speakers were, in addition to Baboo Keshub Chunder Sen, the Brahmo leader, who presided, Baboo Surendranath Bannerjee, the Rev. Geo Kerry, Baboo Jadub Kissen Sowswami, the Rev. Dr. Osborn, Mr. McInnes, Baboo Kalichurn Bannerjee, Baboo Protab Chunder Mozumdar, Baboo Kalimohun Das, and the Rev. A. Whitamore. We reproduce in another column the memorial to the Viceroy which the meeting adopted, describing "the action of the Bombay authorities against the Salvationists in prohibiting their processions, singing, &c., and punishing them for doing what every Hindu, Mahomedan, or Parsee is allowed to do" as "most unjust, arbitrary, and improper, and what is not in harmony with the enlightened policy of Government;" and praying that the Salvationists "may be allowed, with their Hindu, Mahomedan, and other fellow subjects, the freest exercise of their religious rights, and be protected in the exercise thereof, that is to say, from the attacks of ill-disposed persons who may feel inclined, or be instigated, to do them harm."

THE *Indian Daily News* has the following criticism of the meeting :—

Instead of a protest couched in the most general terms, we think those who got up the meeting on Saturday were bound to explicitly testify, not only the particular acts they complained of, but the law upon which they founded their complaints. Nothing of this kind was, of course, done. * * The fact is, the meeting was in no sense a protest ; in no sense, except on the surface, a sign of sympathy with the Salvation Army. It was an ill-considered and ill-digested attempt on the part of those who got it up to interpret tolerance as they choose, and to assert rights and privileges incompatible with the maintenance of religious peace. * * Therefore, going back, we look upon this meeting on Saturday evening less as a protest than as an injudicious and extravagant claim. And we bear in mind that the meeting was careful to disassociate itself from the methods of the Salvation Army. We cannot see how any meeting can protest against the treatment of Major Tucker, when that treatment is solely due to his methods, if it guard itself carefully against approving in any way of those methods; and looking at the matter in as practical a way as we can, we cannot but think the meeting was a mistake from its inception to its conclusion.

THE oft-debated question, what is an amateur ? has cropped up in connection with the Simla Fine Arts Exhibition. "Fair Play" writes to an up-country paper :—"I had always been given to understand, and the prospectus of the Simla Fine Arts Society clearly points out, that the prizes at its exhibition are awarded to amateurs only ; but then, the term amateur is evidently not so easily defined as would at first appear, although one dictionary, which I have just consulted, has it plainly enough that an amateur is a person who practises some favourite pursuit merely for the pleasure it brings him,—not for profit. But the Judges at the Simla Exhibition are apparently of a different opinion, for they have awarded one of the principal prizes to one who avowedly makes drawing and painting the business of his life (I mean Mr. Palmer, of the Surveyor-General's Office, Calcutta). Now, this may be right, or it may not. I leave a discerning public to pronounce the verdict. But why draw the line at another of the exhibitors (Mr. Colin Murray), whose work is pretty generally considered to be the attraction of the Exhibition in the oil colour department, but who, I understand, has not been allowed to compete, on the ground that he is a professional, although I have every reason to believe that he has never made the art of landscape painting the business of his life, practising it merely for the pleasure it gave him, and not for profit ? Clearly, then, according to the definition of the term in the dictionary, Mr. Murray must be an amateur ; whilst Mr. Palmer, who makes his living by drawing and painting, cannot be one."

CITY MUNICIPALITIES AND PRIMARY EDUCATION.

No. 1791 of 1882.

Educational Department,

Bombay Castle, 11th Oct., 1882.

From the Hon'ble C. Gonne, Chief Secretary to Government, Bombay, to the Director of Public Instruction, Poona.

Sir,—With reference to para. 38 of Government Resolution No. 3583 of 19th September, 1882, Financial Department, I am directed to request that you will postpone negotiations for the transfer of Primary and Anglo-Vernacular Schools to City Municipalities until the newly constituted Municipalities are in existence and in working order.

I have, &c.,
C. GONNE,
Chief Secretary to Govt.

THE reason why so many are unable to take Cocoa is, that the varieties commonly sold are mixed with starch, under the plea of rendering them soluble ; while really making them *thick, heavy indigestible*. This may be easily detected *for it Cocoa thickens in the cup it proves the addition of starch*. Cadbury's Cocoa Essence is genuine ; it is therefore three times the strength of these Cocoas, and a refreshing beverage like tea or coffee.

The most wholesome and nutritious of confections is far less consumed than it would were it not for the greatly adulterated articles sold under the name of chocolate. Every cake of Chocolate bearing the name of Cadbury is guaranteed to consist solely of pure Cocoa and white sugar. Makers to the Queen.

MILITARY NEWS.

SIR FREDERICK ROBERTS is about to undertake a tour of inspection. His Excellency intends to leave Ootacamund on the 16th instant, for Bangalore, *en route* to Mysore, the French Rocks, and Mercara ; and returning *eid* Pothanore on the 27th, he will proceed to Calicut, Mulliapooram and Cannanore to inspect the troops at those stations.

THE Madras Chief will return to Ooty on the 4th November, but will leave again on the 13th for Secunderabad, to be present at the camp of exercise of the Hydrabad Subsidiary Force, the Hyderabad Contingent, and His Highness the Nizam's household troops. From Secunderabad Sir Frederick goes back to Ootacamund, and is not expected at Madras till January.

IN addition to the Signalling Class, lately formed, in connection with the Calcutta Volunteer Rifles, an Ambulance Class is about to be formed also ; three representatives from each company being selected to join it for the purpose of instruction in the art of dealing with wounded or disabled men before they can be properly attended to by medical officers. This class will be under the direction of Surgeon W. R. Henderson, Army Medical Department, or one of the medical officers attached to the staff of the General Hospital, Calcutta ; and will probably meet for instruction at the General Hospital. The instruction will resemble that given to the members of similar classes formed in England under the auspices of the St. John's Ambulance Association.

PROPOSED ENTERTAINMENT TO THE INDIAN CONTINGENT.

A LARGE and influential meeting of the citizens of Bombay was held yesterday afternoon, at "Byramjee Hall," for the purpose of taking steps to accord a fitting reception to the Indian Contingent on their arrival here from Egypt. Among those present were observed the Hon'ble Mr. Justice Bayley, the Hon'ble Mr. Justice Melvill, the Hon'ble Mr. Jutice West, Sir Jamsetjee Jejeebhoy, Messrs. Byramjee Jeejeebhoy, Nanabhai Haridas, Right Revd. Dr. Meurin, Messrs. E. C. K. Ollivant, C. H. B. Forbes, Dosabhoy Framjee, N. Byramjee Jeejeebhoy, Major-General Hewett, Messrs. W. M. Macaulay, L. W. R. Forrest, J. R. Duxbury, John Fleming, Frank Chalk, Dr. Weir, Dustoor Jamasjee, Dr. Cody, Mr. Luxmidas Khimjee, Professor Wordsworth, Messrs. Fazulbhoy Visram, Jehangeer Cowasjee Jehangeer, Dr. De Souza, Messrs. N. R. Ranina, Goculdas Jugmohundas, Dr. R. N. Khory, Khan Bahadoor M. C. Murzban, Dr. Cassim, Messrs. Ardesheer Framjee Moos, Joomabhoy Laljee, N. R. Motabhoy, K. R. Kama, C. N. Kama, Byramjee N. Servai, Nowrojee P. Vakeel, Dr. Rozario, Messrs. Khimjee Jeeva, John Macfarlane, Nowrojee Furdoonjee, Damodar Tapidas, V. R. Luxmonjee, Janardhan Gopal, and many others.

MR. N. Byramjee Jeejeebhoy having read the notice convening the meeting, said,—Gentlemen,—The poet hath said, "It is sweet and glorious to die for one's country," and the glorious Army of England, from whose heroic deeds has sprung the high and distinguished position Britannia holds amongst the nations of the earth, has at all times and seasons, in the hour of England's need, poured forth its blood like water for the honour and safety of the country. No man can read the past history of England without being astonished at the mighty deeds of her warriors. We cannot hear those deeds mentioned without feeling our hearts leap with gratitude to God, who has placed this country under the protection of such an army—an army whose distinguishing characteristics always are fortitude in the hour of disaster, courage in the hour of danger, and mercy and magnanimity in the hour of victory. The phalanx of the brave, forming the Indian Army, to whom in a great measure we owe the liberty and peace which we in this country now enjoy, is an auxiliary to the great Army of England, a tower of strength of which we may well be proud. Her Imperial Majesty's Indian Forces showed a most praiseworthy anxiety during the recent events to go and share with their brethren from England the dangers of war and the glories of victory. Moved with corps to volunteer for active service, and the regiments that were chosen to form the Indian Contingent were considered most fortunate by their comrades who were left behind. The Egyptian Expedition has been decided success. A great element of merit seems to have been concentrated in its conception and in the carrying out of this Expedition ; for in the first place never were more means adapted with more complete wisdom and crowned with more absolute success than on this occasion, and probably we saw in it war directed to its legitimate object, which is the vindication of right, without the infliction of suffering upon innocent individuals. But most strikes other nations, and especially the natives of this country and our Princes and Chiefs, is perhaps the result, the perfect unselfishness of the expedition, the intended return without levying contributions on the conquered country or attempting to retain a single inch of soil within it. It is the general belief, and Bombay feels proud in sharing that belief, that the Indian Contingent has behaved in a brilliant manner in maintaining British prestige in modern warfare, proclaiming to the world that Indian soldiers, when led by efficient officers and backed up by such admirable transport arrangements as were organized in India on the late occasion, and which have elicited great encomiums from the highest military authorities in England, are in no way inferior to any soldiers on the face of the earth. A very general desire has pervaded all classes of the citizens of this presidency to accord a fitting welcome and a very very warm reception on their landing here to the warriors who are returning home crowned with fresh and bright laurels, to mark our due appreciation of the services rendered by them to the British Crown in a foreign land. In response to that general and generous desire we have moved in this matter, I mean my friend Captain Tennent and myself. Captain Tennent being himself, as you know, an esteemed officer of gallant name of the Bombay Rifle Volunteers, men who regardless of time and expense, employ their leisure hours, not frivolously but usefully in preparing themselves in case of need to defend the possessions of the Queen-Empress against her enemies. Before feeling our way further we asked their Excellencies Sir Frederick and the Commander-in-Chief for their approval of the proposed movement, and the answers we received were very encouraging indeed. This being as it should be, we next proceeded to form a committee and to ask Colonel the Hon'ble Justice Bayley to preside over it, which he would be an excellent judge and gallant soldier has, with his usual cordiality, consented to do so (applause), and it now remains for you, gentlemen, to call him to the chair and proceed to business. The presence of so distinguished an assembly here to-day and the responses which we have received from the leading gentlemen of all communities to our invitations to join this Committee lead us to hope that the movement must be a great success. (Hear, hear.) I am happy to have to announce to the meeting that the good Thakore Sahib of Bhownugger, who is one of the foremost in loyalty and intelligence amongst the Princes and Chiefs of Kattywar, who happens to be at this moment amongst us, has kindly forwarded to me a cheque for Rs. 1,000, with a letter, as his contribution towards the object we have in hand. (Applause.) With your permission I proceed to read the letter.—

Malabar Hill, 11th October, 1882.

N. BYRAMJEE JEEJEEBHOY, Esq., Bombay.

SIR,—The heartfelt delight with which I regarded the recent signal victory of the British arms in Egypt was to a great extent augmented by the fact that an important part in that exploit was played by the Contingent sent from this country. The bravery displayed by the soldiers of India in this as well as in the recent war in Afghanistan is symbolical of that deep loyalty which all the right-thinking people of India entertain towards the British Crown ; and I view with approval the movement of which I have received intimation from you during our interview, to give a fitting welcome to our soldiers on their return. As a slight mark of my cordial support, I send herewith a cheque for Rs. 1,000, to be devoted to the purpose of that movement.

TAKHTSINGJEE,
Rajah of Bhownugger.

The Hon'ble Mr. Justice Bayley was called to the chair, on the motion of Mr. Dosabhoy Framjee.

The Chairman said.—Gentlemen,—Before calling upon the gentlemen to propose the various resolutions this evening, you will permit me, perhaps, to say that I did not come here at all expecting to have to make a speech. I see around me so many old faces, and people with whom I worked in former years, that I fancy myself some thirteen or fourteen years younger than I am, and that I am presiding over the Bench of Justices. (Laughter.) But, gentlemen, I feel sure that I shall not be obliged, as I was in former years, when presiding over the deliberations of that august body, to call any of you to order for making more speeches than one. It is, I think, admitted by all present that Bombay should do something to retain the proud distinction in respect of hospitality and entertainment which it has on previous occasions been so successful in according to large bodies of people. You will recollect that little more than ten years ago, when the first flying squadron was here, there was a very successful entertainment given to a large body of sailors. A few years afterwards, when H. R. H. the Prince of Wales came here, preceded by another flying squadron, we entertained, on behalf of Bombay, a large number, not only of officers, but of sailors. Gentlemen, it is, I think, worthy of notice that the present movement has received the cordial co-operation, not only of His Excellency the Governor, but also of H. E. the Commander-in-Chief. It will be a somewhat more difficult task to entertain the Indian soldiers than we found in the cases of the soldiers and sailors whom we formerly entertained, because there are various matters connected with caste prejudices which will have to be taken into consideration ; and there will be also a necessity for making arrangements by which as large a number of persons can be entertained as possible. It is not expected that the steamers conveying these soldiers here will all arrive at the same moment, but I am quite sure that the gentlemen who will be proposed this evening will be quite able to cope with any difficulties of that character ; and I trust that although I shall probably not see the entertainment myself, as I am going away in the coming vacation, Bombay hospitality will assert itself ; and that what is done will be not only pleasant and agreeable to the various castes and races of the men, but will reflect creditably on the character for hospitality which this great and opulent city has always possessed. (Applause.) I beg to call on the Hon'ble W. M. Macaulay to propose the first resolution.

Mr. Macaulay.—I should wish the resolution entrusted to me had been put in abler hands. But it is one which I feel sure will be approved by the unanimous votes of all present ; and the knowledge of this fact lightens my task. The resolution is "that in the opinion of this meeting it is highly desirable to accord to the Indian Contingent a hearty welcome and warm reception on their arrival in Bombay crowned with victory from Egypt." I think that no one will gainsay that the Indian Contingent is entitled to a welcome and to a right royal welcome—from us especially, who remained in Bombay at ease, while they were enduring hardships in Egypt, running the risk of losing their lives in defence of the State. Since the Indian Contingent left Bombay they have lived, as it were, in a glass house. The eyes of the world have been upon them through the special correspondents in Egypt representing many newspapers. And the concensus of opinion, so far as I have been able to express in the public papers, is that they have deserved an equal place with the flower of the British army. Gentlemen, this is no small praise. (Hear, hear.) The British army is small ; but it is made up of all the very best materials. In the past it has fought and maintained itself against Continental armies consisting of very much larger numbers ; and should Great Britain ever require assistance against a Continental combination, I feel sure that India will prove an ample recruiting ground. It will be taking up your time uselessly were I to enter into a detail of the various actions in which the Indian Contingent bore a prominent part. I will say nothing more than express a hope that the reception which they will receive at the hands of the Bombay community will be such as to afford them some satisfaction and gratification after the hardships which they have endured. (Applause.)

The Hon'ble Sir Jamsetjee Jejeebhoy seconded the resolution, which was carried unanimously.

Professor Wordsworth said he had been requested by the distinguished host to move the third resolution, appointing a sub-committee, with power to add to their number. The committee was to be appointed for the purpose of organizing a plan of welcome and entertainment to be given to the Indian Contingent. He thought that he would best consult their wishes by simply remarking that the committee which he was going to propose was, so far as he had been able to discover for himself from a hasty glance at the names, representative of all classes, creeds, races, and interests in this island. He thought that all the races who lived under the rule of the Empress of India would cordially unite in giving welcome to her soldiers who had been so worthily defending in Egypt the interests of true civilization and order, and, he might also add, of liberty. The names of the sub-committee were as follow :—

The Hon'ble L. H. Bayley, President, the Hon'ble L. R. Ashburner, C. S. I., the Hon'ble Justice Kemball, the Hon'ble Justice West, the Hon'ble Justice Melvill, Sir Frank Souter, Kt., C. S. I., Sir Jamsetjee Jejeebhoy, Bart., Sir Munguldas Nathoobhoy, Kt., C. S. I., Mr. Byramjee Jeejeebhoy, C. S. I., the Hon'ble S. D. Sassoon, the Hon'ble Nanabhai Haridass, the Hon'ble Budrudin Tyabjee, the Hon'ble H. H. Ags Akbur Khan, Messrs. Dosabhoy Framjee, J. Fleming, C. S. I., Dinshaw Manockjee Petit, Sorabjee Shapoorjee Bengali, C. I. E., General Carnegy, Mr. Dosabhoy Framjee, C. S. I., Col. Hewett, Carnac, Major Heyland, Messrs. E. C. Ollivant, P. M. Mehta, Captain Morland, Messrs. Grattan Geary, H. Curwen, Lukhmidass Khimjee, F. D. Parker, K. T. Telang, R. N. Khote, M. Balfour, Shantaram Narayen, R. M. Forrest, Bomanjee Dhunjeebhoy, Major Sayers, Dr. Cody, Khan Bahadoor Jamsetjee D. Wadia, Dr. Arnott, Messrs. Jehangir Cowasjee Jehangir, R. Watson, Joomabhoy Laljee, Col. Belasis, Dr. Sheham Arjoon, Sorabjee Dhunjeebhoy, Mir Aqlur Eschalez, Khan Bahadoor M. C. Marzban, Capt. Mein, Messrs. K. N. Kabrajee, W. A. Baker, Jairazbhoy Peerbhoy, F. L. Steel, Cumoo Sulleman, Col. Baker, Mr. N. R. Ranina, Sir M. R. De Quadros Messrs. G. C. Bedarkar, C. L. Jackson, Cleveland, Chabildas Lulloobhoy, D. S. Kemp, Fazulbhoy Heptoola, R. S. Campbell, Abdool Hussein H. Jenel Abedin, H. W. Payne, Professor Wordsworth, Mr. Sulleman Ludha Ebrahim, Captain Walshe, General Hewett, Messrs. Byramjee N. Servai, Maneckjee Burjorjee, Dr. N. Hojel, and Mr. Hormusjee Bapoojee Guzder.

Mr. Jairazbhoy Peerbhoy seconded the motion, which was carried unanimously.

Mr. L. W. R. Forrest proposed "that public subscriptions be invited to obtain the necessary funds for carrying out the entertainment." He thought that the public would subscribe to the fund, following the handsome example set by the Rajah of Bhownagar. (Hear, hear.)

The resolution was seconded by Mr. Luxmidas Khimjee, and carried.

Dr. Cody proposed "that an account be opened with the National Bank of India to be called the 'Indian Contingent Entertainment Fund,' and that all subscriptions be paid into the bank to that account."

Mr. E. C. K. Ollivant seconded the resolution, which was also unanimously agreed to.

Right Revd. Dr. Meurin proposed "that Messrs. N. Byramjee Jeejeebhoy and W. M. Tennent be requested to act as Honorary Secretaries to the Committee." He remarked that the best recommendation for the two names submitted to the meeting was that they needed no recommendation. (Applause.)

Dr. DeSouza suggested that the honorary secretaries be requested to thank H. H. the Thakore of Bhownagar for his very munificent contribution to the Entertainment Fund, and for the expression of kindly and loyal feelings towards the British Government.

The Chairman said he had no doubt the secretaries would take the suggestion into consideration.

A vote of thanks was then, on the motion of the Hon'ble Mr. Justice Melvill, tendered to the chairman ; and the meeting separated.

Subscriptions to the sum of Rs. 2,700 were promised in the hall, excluding the Thakore of Bhownagar's donation of Rs. 1,000.

BOMBAY MUNICIPAL CORPORATION.

AN adjourned special general meeting of the Corporation was held yesterday afternoon, when there were present :—Dr. Blaney, Dr. Cody, Dr. Macdonald, Mr. Nowrojee Furdoonjee, Mr. De Souza, Mr. Javerilal Umiashankar, Mr. B. Nusserwanjee Servai, Mr. M. Nowrojee Banajee, Mr. H. Cursetjee Dady, Mr. Joomabhoy Laljee, Mr. Bhaishankar Nanabhoy, Mr. Bhowanidas Tribhovandas.

In the absence of Sir Frank Souter, Dr. Blaney was voted to the chair.

The following report on the subject of the transfer to the Municipality of the charge of Primary Education was presented by the Committee appointed by the Corporation :—

The Committee appointed by the Corporation on the 4th ultimo report that they have held three meetings for the consideration of Government Resolution, dated 23rd March last, Educational Department, and the papers forwarded therewith. Having carefully considered the questions therein referred to, the Committee have the honour to state that they have resolved that the following propositions be recommended for the acceptance of the Corporation :—

1. That the Corporation accepts with pleasure the proposal of Government as contained in their Resolution No. 44, dated 25th March, 1882, and would be prepared at once to assume the management of the Elementary Schools within the Municipal limits of Bombay. 2. That the stipulations made in paragraph 14 of the said Resolution, with the modifications as noted below, would be agreed to, and that the same be submitted to Government for approval. The conditions are as follows : (*a*).—That the Government principles and system of Elementary School management, rates of salary, of course of instruction shall be generally maintained in the Municipal Schools. (*b*).—That the expenditure on the schools from other sources shall be not less than twice the amount of the Government grant. In accepting this proposition the Corporation have not lost sight of the fact that in all probability there will, under the new arrangements, be a very large increase in the expenditure on Primary Education, and that therefore Government should be solicited to bear a proportionate share of that increase, unless it is understood that Government is prepared to relieve the Municipality of other charges.

(*c*).—That the Municipal Schools shall be open to inspection and examination at any time by the Government Inspecting staff. The Corporation expresses the hope that in this, as in other branches of these important subjects, the desirability of gradually reducing the staff of Government officers *pro tanto*, step by step with the development of local management, should not be lost sight of

(*d*).—That the accounts of the Municipal School Fund shall be audited yearly by Auditors, of whom one shall be a Government Officer, and shall be published for general information. (*e*).—The Municipality shall agree not to resign the management of the Municipal Schools without a clear year's notice. Government will give a clear year's notice of abolition or withdrawal of the Government grant ; provided that each party to this contract shall in the event of either of them withdrawing therefrom, be held responsible for the payment *pro rata* of such pensions and gratuities, and moneys due under contracts and leases, as the said parties may have become liable for before the date of such withdrawal. This proviso has been added with a view to prevent difficulties from arising in the event of either party withdrawing from the undertaking.

(*f*).—Instead of a lump grant from Provincial Funds, the Municipality may claim a grant by results, in which case the Grant-in-Aid Rules shall be held applicable to the Municipal Elementary Schools, and Rule (*b*) above shall not apply. Government may after one year's notice require a Municipality to accept a grant by results, in place of a lump grant. The proposed rule has been omitted, as the Corporation is of opinion that it is undesirable that the Government contribution should be liable to fluctuate in accordance with grant-in-aid rules which may be changed from time to time at the discretion of Government.

(*g*).—If the Municipality employ any teacher of the Government Department who has done pensionable service or for pensioning whom the department has made any provision, the Municipality must make provision for the continuance of his pension rights, according to the rules of Government from time to time in force in so far as his services would be under the Municipality. (*h*).—The appointment and dismissal of employes in Municipal Elementary Schools, or under the School Board, shall rest with the School Board or Municipality as may be arranged, but no employé of the Municipality by the Department of Public Instruction shall be discharged or dismissed without the concurrence of the Educational Inspector, except after three months' notice, which should be communicated to the Educational Inspector. (*i*).—The Municipality shall give full consideration to the representations of the Department of Public Instruction as to the number, size and location of schools, their discipline, and all matters connected with caste prejudices which have to be taken into consideration ; and there will be also a necessity for making arrangements by which as large a number of persons can be entertained by the Department of Public Instruction in preference to others, not undergraduates of the University, so far as may be possible. The Corporation is of opinion that Bombay, with its large educational requirements, ought to have a training College of its own for both sexes. The words "not undergraduates of the University" and "may be possible" have been added by the Corporation.

(*j*).—A statement of employés, with their salaries and all other items of recurring expenditure, shall be maintained by the School Board, and be at all times open to the inspection of the Government Educational Inspector. (*m*).—Government guarantee the payment of such average sum as may be fixed on for a definite period of not less than five years. These words have been inserted in place of the words "The payment of the Government grant must be held subject to financial exigencies."

(*n*).—Government will reduce or withdraw the grant, after notice, if abuses or transgressions of the declared educational policy of the State are persisted in by a School Board after time has been given for reforming them, or if the provision of schools of elementary instruction by the Municipality is manifestly inadequate. The Corporation trusts that it would never be found necessary to enforce this clause, and therefore suggests for the consideration of Government whether the clause might not be erased ? If, however, it is thought necessary to retain it, the Corporation recommend that the words "reduced below its present strength" be substituted for "manifestly inadequate."

(*o*).—All reports and returns required by Government must be furnished by the School Board. (*p*).—It shall be competent to the Municipality to reconsider its liabilities and position at any time in case of any liability which it undertakes in this matter that would be affected by any change made by Government under the provisions of clauses *e*, *g*, and *n*, wherever such changes should be made. This is a new provision, which the Corporation hope will be agreed to by Government.

3. That the Corporation is prepared to organize a School Board for working the schools within the Municipal limits of Bombay. 4. That such School Board shall consist of twelve members, to be elected by the Corporation. Of such members not less than six must be elected from amongst the members of the Corporation, and the provision hereafter contained for the filling up of occasional vancancies, elections to the Board shall be made. In the case of the first Board to be constituted under these rules, at a special general meeting of the Corporation to be held within one month from the approval by Government of these proposals of the Corporation. And in the case of any subsequent election, at the first special general meeting of every new Corporation. The members so elected shall hold office until there shall have been a fresh general election and appointment of members of the Corporation, and until such time as a new Board

feature in the week has been the heavy fall of rain at Benares, Allahabad, and Sutna.

Madars.—General prospect good.

Bombay.—Rain in most districts of the Deccan and Southern Mahratta Country, none in Guzerat and Sind; harvesting of kharif and preparations for rabi in progress; locusts doing much injury in Khandesh, Ahmednagar, and Nasik; elsewhere prospects generally good; slight cholera, fever, and cattle-disease in some districts.

Bengal.—Prospects generally improved; rain during week has greatly benefited transplanted rice; autumn harvest generally average; in a few districts only crops indifferent; sugarcane everywhere progressing; ploughing for rabi crops progressing; fever prevalent in some districts; cholera reported from Furreedpore and a few other places, and small-pox from Manbhoom and Singbhoom, otherwise public health good.

North-West Provinces and Oudh.—Rain has fallen in Benares and Allahabad divisions, and in part of Oudh; more is still wanted in Lucknow, Rae Bareli, Farukhabad, and Jhansi; ploughing for the rabi crop is everywhere in progress; the kharif outturn is average; prices on the whole stationary; slight cholera and fever still continue to be prevalent; cattle-disease continues in Kumaun, Fyzabad, and Partabgarh.

Punjab.—No rain has fallen in the districts reporting during the week; the health of the province is generally good, but mild fever prevails in some districts, and cattle-disease has appeared in the Murree tahsil; the prices of food-grains are still falling in Jullundur, but are generally stationary elsewhere; the prospects of crops continue good in all districts except Sirsa, Hissar, Rohtak, and Umballa districts, where they are below the average as reported last week.

Central Provinces.—Weather cloudy and warm, with slight rain in several districts; prospects of kharif crop good; land being prepared for rabi sowings; fever and cholera were still reported; prices steady.

British Burma.—With the exception of a little cholera, public health good; health of cattle much improved; rainfall favourable; crops doing well.

Assam.—Weather seasonable; prospects generally very good; public health good.

Mysore and Coorg.—Rain more or less all over the Mysore State; standing crops in all districts in good condition; pasturage sufficient; planting operations continue active; prices easy.

Berar and Hyderabad.—Crops in good condition; prospects favourable.

Central India States.—Kharif being reaped; sowing of rabi commenced, prospects good.

Rajputana.—Tanks, wells, and health fair; makki harvested; ploughing commenced. Health and prospects good.

Nepal.—Weather seasonable.

THE EDUCATION COMMISSION AT MADRAS.

THE following is an abstract of the Hon'ble Mr. Hunter's speech at the Madras Presidency College:—

The Hon'ble Mr. Hunter said that he really felt a great diffidence in addressing the audience before him, for he found from the able speech of the Principal that he was probably speaking to some future Prime Minister, legislator, or Diwan. He congratulated this great College on producing such men—men who were successfully governing the Native States of Southern India. But as the object of the Commission was to see and hear, not to speak, he would venture to make only a very few remarks. A great deal had been said about the imperilled interests of higher education. Well, he for one believed that higher education was at this moment of the greatest importance to India; it was the class of education for which there was the chief demand; and any blow at higher education would be a suicidal act to the progress of the country. All he could say on behalf of his colleagues and himself was, that that blow would not be struck by the Education Commission. (Loud cheers.) He could answer at any rate for the Madras members; the faithful representatives of this most conservative province. Of the four Madras members of the commission, the two sitting on his extreme right and extreme left were the heads of great Colleges, who had spent their lives in the work of higher education. The gentleman sitting next to him on the left, a distinguished member of the Educational Department, was naturally imbued with its policy, and strongly represented its views. The only remaining member of the Commission present was Professor Ranganada Mudeliar, of this College, sitting on his right. Well, gentlemen, all I can say is, that if your learned Professor is the guilty party destined to conduct the attack on higher education, all I can say is, that I have quite mistaken his character. (Laughter.) Professor Ranganada was a student of this College. He headed the list of graduates for his year. He has taught with brilliant success as Professor ofPhilosophy, as Professor of History, and as Professor of Mathematics in this College; [illegible] one of the most accomp[illegible] you have raised in this College to [illegible] cipal, Mr. Powell, I could not help reflecting how few Englishmen in India receive such an honour. Administrators come and go, are respected or otherwise while they are here, and then are forgotten. But your great schoolmasters, like Mr. Powell, are the Englishmen whom you select for your permanent reverence and love. (Loud cheers.) I am sorry that your present Principal, Mr. Thomson, has been unable to give evidence before the Commission, owing to his absence in England. His place, however, has been ably filled by Dr. Duncan, your acting Principal, although we should have preferred to receive the evidence of both. Dr. Hunter then concluded by an eloquent appeal to the students to maintain the high reputation of their College, and year by year to add new names to the roll of distinguished men whom this seat of learning had produced.

The Hon'ble Dr. Hunter resumed his seat amid loud applause, and privately asked Dr. Duncan for a holiday on Monday and Tuesday. This being agreed to, he rose again and said he had heard that evening that the students were very fond of their attendance. He must therefore beg them to excuse him for having obtained from their Principal a stern command that the College should be closed on Monday and Tuesday next, and that they should be condemned to a holiday for those two days. (Loud cheers.)

In going round the College with the Principal and Professors the Hon'ble Mr. Hunter spent a considerable time in the examination of the Sanskrit manuscripts. He regretted the absence of Dr. Oppert, the Sanskrit Professor; and thanked the acting Professor for bringing forth these ancient treasures of the College.

BENGAL.

ANOTHER ICE COMPANY.—We have received the prospectus of yet another ice company to be started in Calcutta, to be called the British India Ice Company Limited, with capital of Rs. 200,000 in shares of Rs. 100 each. It is proposed to work the ordinary other machines in conjunction with Mr. G. Dubern's water cooling apparatus. It is estimated that a sale of 14 tons of ice per day, or ten months in the year at two pice per seers will give a net profit of nearly 35 per cent.—*Englishman.*

DEATHS IN CALCUTTA.—During the week ended the 30th September there were 225 deaths registered in Calcutta, giving a deaths-rate of 27·1 per thousand per annum. In the previous week there were 219 deaths, and the death-rate was 26·3 per thousand. There were no deaths from small-pox, 6 from cholera, 75 from fevers, 32 from tetanus, and 112 from causes not specified. The deaths are thus classified 3 Non-Asiatic, 9 Mixed Races, 147 Hindus, 66 Muhammadans, and 0 of other races.

A NEW STEAMER.—We had the pleasure, yesterday, of inspecting, through the courtesy of her Commander, Captain William Miller, this magnificent vessel, which arrived in Port on Saturday last on her first voyage to Calcutta. The City of Oxford is the latest addition to the fine fleet of the "City Line" of Steamers, owned by John Smith and Sons of Glasgow, and certainly a finer vessel does not lie at the river at the present moment. Her extreme lengthis is 415 feet, all over, or 400 between perpendiculars; she is of 43 feet beam, and has 30 feet depth of hold. Her carrying capacity is 4,600 tons gross, and 2,500 tons nett, and she can steam about 10½ knots an hour. She has accommodation for fifty first class passengers, and the cabins are fitted up with all appliances that can minister to either the luxury or comfort of passengers. Some of the other passenger vessels that we have seen have saloons which extend from on side of the vessel to the other, but in this vessel the saloon is so constructed that more room is given to the cabins which are broader and more roomy than most we have seen. The saloon itself is fitted up most beautifully and elegantly, and is wainscotted throughout with maple, oak and teak. We understand that this fine vessel has brought a cargo of 4,600 tons of piece goods; the largest cargo of this merchandise that any one vessel has yet brought to Calcutta. Its commander is one of the oldest servants of the "City Line," and is one of the most genial well thought of, and attentive skippers that ever attended to the comfort of passengers and the safety of the vessel in his charge.—*Englishman.*

MADRAS.

SPECIAL POLICE FOR SALEM.—Mr. S. D. Simpson, of the Madras Police, at present engaged enlisting a special force of 200 constables for duty at Salem, took up a batch of ninety last Thursday and returned to Madras yesterday. He will proceed with a fresh batch next Wednesday. The men have been recruited chiefly from the disbanded native regiments, and are of good physique, their average height being between five feet six inches and five feet seven inches, and the measurement round the chest being thirty-nine inches in some instances. —*Madras Mail.*

OBITUARY.—It is with regret that we record the demise of the Rev. T. M. Aloysius Nadar, Senior Priest, attached to St. Peter's Church, Rayapooram, on Sunday morning, after an illness of nearly six months, at the age of 65 years. The Rev. gentleman was born at Karical, educated in the Roman Catholic Seminary in Pondicherry, was ordained Priest in 1847. He served in that Mission up to 1864. In 1865 he joined the Irish Mission here, and up to the time of his death was a very zealous Priest. He was the author of several Tamil religious works besides being the editor of the *Vethantha Nirnaya Patrica.*—*Madras Times.*

N.-W. PROVINCES, OUDH, AND PUNJAB.

POLO AT DEHRA DUN.

THERE has been some very good play here during the race week, many of the visitors having brought their ponies have got up games and matches, and displayed some fine play. Some of the 9th Lancers and Mr. Bryan of the 10th Hussars deserving special mention.

The true matches were scratch teams of the 9th Lancers against the 54th Regiment, and Dehra against Roorkee. The former match was played off on Wednesday, the 4th instant, and the sides were:—

9th Lancers.	*54th Regiment.*
Major Gough.	Colonel Hughes.
Captain Hopkins.	Captain McCartney.
Mr. MacFarlane.	Mr. Low.
Mr. Jenner.	Mr. Lushington.

Major Gough was a host in himself, and altogether the 54th had a hard time of it. The 9th had the ball continually in the neighbourhood of their goal, and when the 54th did get a run out, which they did occasionally, from the splendid hits of Captain McCartney and Mr. Low, Major Gough or one of his side always managed to sent the ball back as quick as it came out. Major Gough scored most of the goals and all very rapidly, and at the conclusion of the game the score stood—9th Lancers, 7 goals, to the 54th Regiment's one.

The next match was played on the 6th instant, the sides being—

Dehra.	*Roorkee.*
Capt. Hopkins, 9th Lancers.	Col. Hughes, 54th.
,, MacFarlane, ditto.	Capt. McCartney ,,
,, Travers, 2nd Goorkhas.	,, Leach, R. E.
Doctor Barry.	Mr. Lushington, 54th.

If there was any advantage it was on the side of Roorkee, who provided lots of occupation for the Dehra team. Captain McCartney and Mr. Lushington playing remarkably [illegible] a great deal of [illegible] studion the game stood [illegible] one.—*Pioneer.*

SULPHOLINE LOTION.—An External Means of CURING SKIN DISEASES. There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferers for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produces a clear, healthy, natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d. Made by J. PEPPER and Co., London. Sold by TREACHER and Co.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections and in wasting disease, scrofulous tendencies, &c. The whole frame is vivified, invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by Chemists every where. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition. Sold by TREACHER & Co.

TARAXACUM and PODOPHYLLIN—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain between the shoulders, headache, drowsiness, no appetite, furred tongue, disagreeable taste in the mouth, constipation, disturbance of the stomach, and feeling of general depression. It puts the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine, Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists, a most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

LOCKYER'S SULPHUR HAIR-RESTORER will darken grey hair, and in a few days completely bring back the natural colour. The effect is superior to that produced by an instantaneous dye, and does not injure the skin.

LOCKYER'S SULPHUR HAIR-RESTORER is the best for restoring grey hair to its former colour. It produces a perfectly natural shade, and is absolutely harmless. Recommended for destroying scurf and encouraging growth of new hair.

LOCKYER'S SULPHUR HAIR-RESTORER.—No other hair dressing is requisite. Large Bottles, 3s. 6d. Sold by Chemists, Hair-dressers, and Perfumers in London, and throughout the world.
Lockyer's is equal to any of the high-priced preparations. Sold by TREACHER & Co.
